conclusion

the book explores the historical dimension of indian indenture from within the lived experience of laborers who emigrated to fiji from colonial india a century ago as these laborers are no longer alive one could argue that the experience of indenture is no longer accessible if there had not been recordings of the laborers life narratives it is seven of these audio recordings made for public broadcast which form the data for a fine grained language analysis to unearth the life world of indenture through the merging of labov s high point analysis with bamberg s positioning analysis the book focuses on the situated discursive performativity of identities and draws attention to the complex and at times conflicting positions within the life narratives sorting through those positions resulted in the ultimate challenge to the essentially homogenizing current master narrative discourse on who can be classified as an indentured laborer and what signifies as an indenture experience

redistributing land rights is a tricky subject and one that easily becomes controversial as recent experience has shown this new book calmly examines the strengths and weaknesses of different forms of land redistribution

this text introduces university students to the philosophical ethos of critical thinking as well as to the essential skills required to practice it the authors believe that critical thinking should engage students with issues of broader philosophical interest while they develop their skills in reasoning and argumentation the text is informed throughout by philosophical theory concerning argument and communication from aristotle s recognition of the importance of evaluating argument in terms of its purpose to habermas s developing of the concept of communicative rationality the authors treatment of the topic is also sensitive to the importance of language and of situation in shaping arguments and to the necessity in argument of some interplay between reason and emotion unlike many other texts in this area then good reasons for better arguments helps to explain both why argument is important and how the social role of argument plays an important part in determining what counts as a good argument if this text is distinctive in the extent to which it deals with the theory and the values of critical thinking it is also noteworthy for the thorough grounding it provides in the skills of deductive and inductive reasoning the authors present the reader with useful tools for the interpretation evaluation and construction of arguments a particular feature is the inclusion of a wide range of exercises rich with examples that illuminate the practice of argument for the student many of the exercises are self testing with answers provided at the back of the text others are appropriate for in class discussion and assignments challenging yet accessible good reasons for better arguments brings a fresh perspective to an essential subject

dutch archaeology has experienced profound changes in recent years this has led to an increasing use of archaeological predictive modelling a technique that uses information about the location of known early human settlements to predict where additional settlements may have been located case studies in archaeological predictive modelling is the product of a decade of work by philip verhagen as a specialist in geographical information systems at raap archeologisch adviesbureau bv one of the leading organizations in the field the case studies presented here provide an overview of the field and point to potential future areas of research
